Carpet Mats for all models

Is it long past time to replace those old, nasty, stained, and worn out original mats? Nothing improves the look of the interior faster than a fresh set of good looking and long wearing floor mats!

BP's custom floor mats are made to the same high standard as genuine, yet at a much lower price. The deep pile and color matches your carpet, and the heavy rubber baking prevents slippage. Additional clips also help hold the mats in place. When dirty they can simply be removed and hosed off.

The patterns are cut to exactly match the floor contours, and the edges are stitched, not bound, for added ruggedness. These mats come with a 2 year guarantee, a full year longer than genuine.

Please give us the model, year, and the factory name of the interior color when ordering. We can also use your VIN number to assure the correct color match.

Discovery Jumbo Cupholders

- Tan STC53156SUC
- Gray STC53156LPW

Genuine Land Rover retrofit kit allows you to use American sized cups or coffee mugs in your Disco II. They sit directly on the lip of the console, and install easily. Drill one hole and fit two self tapping screws per holder: hardware and instructions included. Inner liner is removable for cleaning and really big stuff! Each set includes two cupholders.

Note: these are designed for and are shown in a Disco II; however, you can also fit them to Disco 1's with no particular problems.
