## Vehicle VIN Suffix Numbers and Change Points:

*These numbers are important to ordering the correct parts*

1970-1986      Non NAS Gray Market

NAS "Classic" models:				
1987	HA	336625	—	336626
1988	JA	336627	—	351032
1989	KA	351033	—	399972
1990	LA	399973	—	464553
1991	MA	464554	—	610293
1992	NA	610294	—	624755
1993	PA	624756	—	639963
1994	RA	639964	—	647649
1995	SA	647650	—	on, RR11

**To make ordering easier please write in your vehicle's VIN number. Many parts are number specific as opposed to model year.**

VIN numbers can be found on your vehicle's registration, or on the VIN plate visible through the windshield. The useful suffix is the second half of the number.

## Some common Range Rover terminology, important when placing orders:

**"NAS"** = North American Specification.

US trucks have some parts that are different from European or Australian specs.

It's important to use NAS equipment.

**"LWB"** = Long Wheel Base.

LWB's have some parts that differ from their 100" counterparts, even within the same year model. If you have a LWB make sure you mention that to your salesperson!

**"GDE"** = Great Divide Edition.

Uses some parts that are appropriate to earlier models.

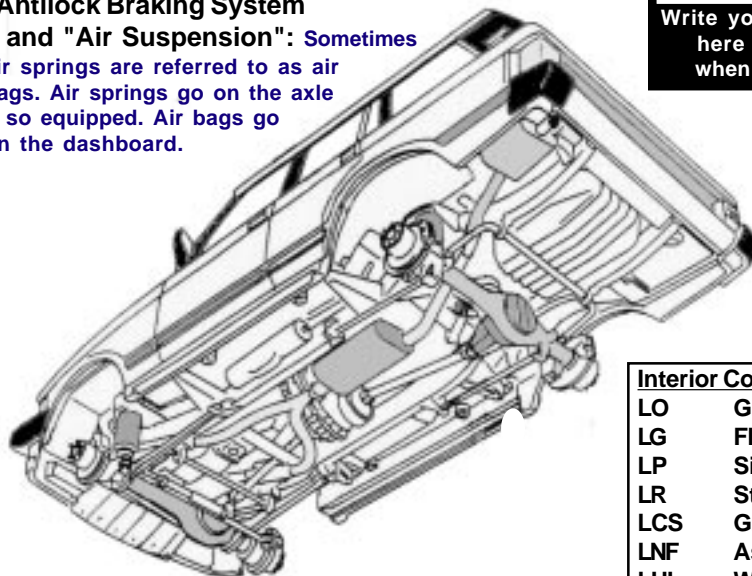

**"Hunter"** - Another one that uses some parts from earlier models.

**"ABS"** = Antilock Braking System

**"Airbag"** and **"Air Suspension"**: Sometimes

air springs are referred to as air bags. Air springs go on the axle if so equipped. Air bags go on the dashboard.
