

Spark Plug Wire Set

Always the highest quality sets available.

Series II, IIA 587701
Series III ERC3256

Distributor

New replacement original style 25D distributors have become available again on a limited basis. Check for availability. The newer style replacement 45D distributors are usually available. Both work equally well, it's mostly an appearance difference. Both are brand new, not rebuilt, no core charge required. Either can really improve the power and mileage of your 2.25 if your old distributor is worn out.

Original style 25D distributor.
